

CONFERH ACTIVITY IN COVID TIMES 19

CORONA VIRUS

COVID-19

SPECIAL BULLETIN

CONFEREH

AUGUST

2020

INTRODUCTION

Dear brothers and sisters,

On behalf of the Confereh Directive, I greet you in a very fraternal way, wishing that hope and strength to continue making pilgrimages with our people will not be overshadowed. God always counts on our generous service and dedication. ***Go ahead and cheer!***

This Confereh Bulletin is still special, because the time we are living in is still special.

It remains a time of grace because we are certain that God remains with his close, liberating, and purifying action.

Many brothers and sisters have lost their lives to this disease, and the sick in many cases do not find decent care. We feel useless, powerless and even outraged by such negligence on the part of the authorities. Like Jesus, we painfully see the multitude that is helpless, but we are not discouraged, because the "hour of God" is always and will continue to be.

As Religious Life, we continue to thank every person who is on the front line serving the population. Let us not get tired of praying that one day not too far away we will relive the reunions, the direct contact etc.

In this newsletter we share the small gestures that even in confinement have managed to be realized. Likewise, we share information that surely is of everyone's interest.

God bless you!

Hna. Deysi Nohemy Ordóñez

By the CONFEREH Board of Directors

PRESENCE AND SUPPORT FOR THE MOST VULNERABLE

In the midst of confinement and with the help of technological resources, food aid was managed to benefit 500 families from different parts of the country. Following bio-security measures, each member of the national board assumed this responsibility in the area where the support happens alongside of some sisters from different congregations.

This gesture of solidarity made it possible to become aware of the impact that the pandemic is having on the poorest households in our country.

Information

Microcredit rotary fund

Confereh's board has managed a microcredit project to continue to support the most vulnerable families in the various Confereh areas in the country. We are counting on the advice of Caritas of the Diocese of Cholulteca.

50 years CONFEREH

The year 2021 will mark the 50 years of existence of CONFEREH. It is a beautiful occasion to reread with a grateful heart all that has been experienced over these 50 years. Seeing and living the present with passion, letting us touch for what we are being and doing as a religious life in the present of our country and also recognizing that which paralyzes us, frightens us and challenges us and calls us to set out on our way. And finally, move forward with a hopeful spirit thinking about the generations that come after us.

As this festival is already being prepared, we count on the support of the secretariat and the team of theologians of the CLAR. Information on this subject will be sent later, for which the support of all Honduran religious life is expected.

Activities 2020

The meeting with Senior Superiors scheduled for October is maintained even if it happens via Zoom or other means. November's Spiritual Retreat is also maintained, hoping that the Tabor is already in operation.

JPIC Communiqué

The Justice and Peace and Integrity committee of creation has sent a statement reflecting the reality we are living as a country; we invite you to read it and hope it will be an instrument of reflection in these difficult times.

New Generation Congress

The New Generation Congress was postponed to February 2022, in Mexico. Members of this commission are invited to participate in a virtual meeting on February 14, 2021 from 3 to 6 pm Colombian time.

CONFEREH Offices

We hope that as early as August the Confereh offices will be able to reopen their doors to continue attending them.

GOD CONTINUES TO ACCOMPANY US IN THESE TIMES OF PANDEMIC

LET'S BE SOWERS OF HOPE
