NZHerald

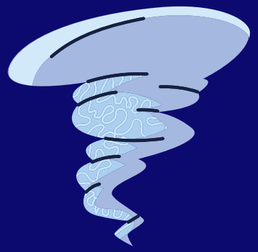
What is the connection?

Crop Failure

Women experienced increased agricultural work and food production burden

Water Scarcity

Increased burden to women walking distances to access safe water & impacts access to education and economic stability

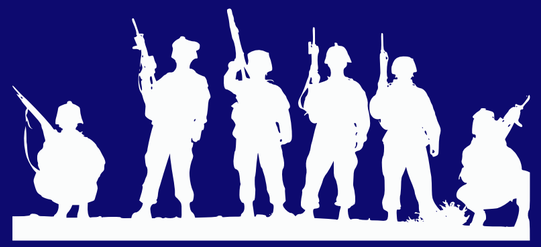


Natural Disasters

Women have higher incidence mortality in natural disasters, can suffer from an increased threat of sexual violence

Fuel Shortage

Many women in global south countries spend 2.9 hours / day collecting fuel & fodder & performing cooking chores



Conflict

Women suffer greatly from the consequence of conflict such as rape, violence, anxiety and depression

Disease

As care givers, women often experienced an increased burden for caring for young, sick & elderly as well as lack of access to health facilities

Displacement

Forced migration could exacerbate women's vulnerability

Info from Beth Blissman (Loretto Community USA)

LET'S HAVE OUR CONVERSATIONS

Current experience/situation

- What are you seeing in your home, school, community? What is being done to address it?
- How are girls impacted by climate change where you live?

Solutions: My/our action

- What needs to be done/can be done to support girls and communities being impacted by climate crisis? What actions by individuals and leaders to address climate injustice?
- What action can I/we take to address the climate injustice in our school or community?

MY / OUR COMMITMENT
