

Transforming our world: The 2030 Sustainable Development Agenda

17 Goals to Transform
the World:

The UN Sustainable Development Goals

The 2030 Sustainable Development Agenda - Sustainable Development Goals

Adopted by the UN General Assembly on 25. Sept. 2015. They :

- succeed the Millennium Development Goals (MDGs)
- integrate poverty reduction goals of MDGs and sustainability goals of the earth summit of Rio 1992
- concern governments of all countries
: developing, emerging and industrialized countries
- define 17 development goals and 169 targets
- are to be implemented through the 2030 -agenda where each country is responsible for its own agenda

The 2030 Sustainable Development Agenda is about:

Realization of economic and social rights

Goals 1-8 - correspond ± to MDGs, but are more radical and inclusive - based on the covenant on economic, social and cultural rights:

- 1. End **poverty** in all its forms**
- 2. End **hunger**, promote sustainable agriculture**
- 3. Ensure **healthy** lives**
- 4. Ensure equitable **education****
- 5. Achieve **gender equality****
- 6. Ensure availability to **water and sanitation****
- 7. Ensure access to affordable **energy****
- 8. Promote growth and full **employment****

In all areas special attention is given to vulnerable groups: women, children, indigenous peoples.....

Coping with global trends

Goals 9-12

deal with some global trends that need special attention : industrialisation, inequality, urbanisation, patterns of production and consumption

9.Promote infrastructure and sustainable

industrialisation

10. Reduce inequality within and among countries

11. Make cities safe and sustainable

12. Ensure sustainable consumption and production patterns

The emphasis in all areas is on sustainability.

Protection of life-sustaining systems

Goals 13–15

deal with the protection of life- sustaining eco-systems:
the climate, oceans and land.

13. Combat **climate change** and its impact

14. Conserve and sustainably use the **oceans** and
marine resources

15. Protect and restore terrestrial ecosystems:
forests, soil, biodiversity

They are part of the “global commons” on which the
continuation of human life on the planet depends

Conditions and means of implementation

Goals 16-17

deal with the conditions required and the means needed to make sustainable development possible: peace, the rule of law and international cooperation.

16. Promote peaceful and inclusive societies, provide justice to all, build effective institutions

17. Strengthen the means of implementation and revitalize global partnership.

This includes:

- Financial resources
- Sharing of technologies
- Capacity-building
- Equitable trade
- Political coherence
- Global partnership

The Sustainability Compass and the SDGs

GOALS ARE INTER-RELATED

- **IE: Goal on Hunger**

Adequate income to eat, work

SUSTAINABLE
DEVELOPMENT
GOALS

Key Concepts

Sustainable

The SDGs constantly use the word sustainable: economic growth, industrialization, agriculture, development, our use of resources...everything has to be sustainable. All resources have to be used in such a way that they do not diminish the life conditions of future generations.

Inclusive

The SDGs attach the word inclusive to many of the goals: development, education, growth, institutions ...

It refers to the groups that are usually excluded, particularly the poor, women, children, refugees and indigenous people ...

Ecosystems

Some SDGs speak of Ecosystems (2.6.14.15.). Modern science reminds us that we and all living beings live in a web of interconnected systems that need to be preserved.

The 17 Sustainable Development Goals (SDGs) and 169 related targets address the most important economic, social, environmental and governance challenges of our time.
