PIG FEAST

Colonialism in our time

VIRTUAL FILM SCREENING & PANEL DISCUSSION

What does “development” mean when it comes at the cost of Indigenous lands, lives, and futures? Join the Justice Coalition of Religious for a screening of *Pig Feast – Colonialism in Our Time*, a documentary examining contemporary colonialism, militarisation, and large-scale development projects in West Papua. The film will be followed by an interactive and action-oriented panel discussion, exploring a new conception of development that preserves life and the environment, upholds people’s dignity, and respects human rights.
